

The Digital Price Tag for Fashion Retail

SES-imagotag can now offer all the possibilities that a modern retailer nowadays can expect for their fashion store.

You can now choose the FashionTAG that fits your needs, variable color selection and HD graphic displays.

The FashionTAG is a digital price tag tailored to the needs of fashion store. With an integrated NFC chip, the price tag can automatically communicate with smartphones and even make an in-store product reservation with the loyalty program & click-&-collect functions.

Customers can see direct information on the price tags or on their smartphone like sizes or in-store availability. Through bidirectional communication, the store managers can see the real time inventory, at any time.

Easily adjustable price tags take all their sense with weather-related products, even for adjustable promotions depending on the season. The all new FashionTAG can also have an online synchronization.
